Business & Product Development

Products**

Vehicle finance:

In European markets - become the leading mobility platform offering a wide range of products:

- used vehicle financing
- premium car financing
- subscription-based products for greater flexibility: rent-to-buy | long term rent

Consumer finance:

- expand product range by utilizing existing databases
- shift portfolio to longer maturities and higher ticket loans to secure long-term income streams
- Increase off-line presence through partnerships with local retailers

In emerging markets (Africa and Central Asia) – keep organic growth in core segments:

- focus on productive lending that supports local entrepreneurs and taxi drivers
- launch multiple social impact products targeted at decreasing unemployment
- build a strong vehicle fleet management infrastructure

Processes

Further digitalization across organization:

- further automation of loan issuances and underwriting processes for seamless customer experience and efficient resource allocation
- further development of sales channels:
 - launch of car portal v3 across all vehicle finance markets
 - upgrade partners (POS / Dealerships) sales tools

Capital management

- continuous improvement in financial covenants – ICR and Capitalization Ratio
- explore routes for attracting outside equity

Social Impact

- non-financial reporting based on the ESG framework to disclose information and data on the environmental, social, and corporate governance aspects
- set long term ESG targets. To launch several projects to help vulnerable groups across different markets
